Role of Different Agencies in Successfully Tracking Adaptation Progress

Guiding Questions

1. What is your agency’s primary role in general? (What is it responsible for?)

   a) Are your responsible for a given sector that will be impacted by CCA?

   b) Are you dependent on others for CCA data/implementation/funding?

2. Does your agency have and M and E system or unit? If yes, can you describe what the M and E system or unit do? If no, how does your agency gather information?

3. On what/whom is your agency dependent for gathering information?

4. How do you store information?

5. What do you need for your agency to better plan for, monitor, respond to and understand CCA?

6. How is information shared between your agency and others?

7. What M and E systems would you like in place for CCA?
