## WRI Topics

Governance Water  
Finance Sustainable  
Climate Cities  
Energy Business  
Food Economics  
Forest

# WRI'S APPROACH

# Training Series: Methods for Prioritizing Adaptation Options for Decision Making

- Objectives:
  - Strengthen capacities among project planners to prioritize adaptation options and projects that will attract funding from the GCF.
  - Co-design methods to prioritize adaptation options with participants to tailor to Fijian context and needs
- Audience: Government agencies, private companies, non-governmental organizations

# Training Series: Methods for Prioritizing Adaptation Options for Decision Making

## Training on methods:

- (1) Process of engaging private sector (Jan 19)
- (2) Economic tools for prioritization (Jan 20)
- (3) Tool to identify projects with potential to scale (Jan 20)
- (4) Process of prioritizing flexible projects through participatory scenario development (Jan 21)
